

Krushna Manawatkar

To incorporate my knowledge & skills for organizational & personal growth for the betterment of organisation and self-growth

Experience

12 weeks

VaidusEductech

CAD Intern

Developed parametric 3D models of mechanical parts and components from 2D sketches, with focus on design accuracy and efficiency. Applied parametric design principles to streamline part modifications and reduce iteration time.

July 2025-Sep 2025

Siemens Energy

Diploma Trainee Engineer

Gained hands-on experience in Subassembly and breaker joint assembly within the AIS (Air Insulated Switchgear) department.

Developed practical knowledge of assembly procedures, electrical testing, and safety protocols in a professional industrial environment.

Strengthened teamwork, problem-solving, and technical skills by working alongside experienced engineers and technicians

1 month

Hero moto service

Intern

Servicing of Motorcycle
